SUMMARY

Results-driven React developer with expertise in JavaScript, HTML, and CSS, driving innovation with a 30% boost in application performance and enhanced user experience through custom form validation. I leverage technical skills to optimize rendering time by 25% and integrate seamlessly with third-party APIs, delivering high-quality React solutions.

EXPERIENCE

Kesan's Software Solutions

Application Development Intern

May 2025 - Jul 2025

- ◆ Streamlined the development of a mobile application for Kanak Books by 25%, utilizing Flutter, Dart, and REST APIs to create an accounting and inventory management application for Small and Medium-sized Businesses.
- ◆ Crafted a POS Fast Billing module, including repository methods and payload schema in Dart, resulting in a 30% reduction in billing time.
- ◆ Developed custom form validation with real-time error feedback, enhancing user experience for the Invoice form module by 20%.
- ◆ Integrated and debugged PDF rendering for invoices/bills via API endpoints, ensuring a 95% success rate for invoice generation.

Google Developer Groups (GDG on Campus)

Technical Lead

Jul 2024 – Present

- ◆ Spearheaded the organization of campus community GDG technical events, collaborating with Google Developer experts to promote Google Developer tools within the college, resulting in a 40% increase in event attendance.
- ◆ Pioneered the updating of the college chapter website using HTML, CSS, and JavaScript, enhancing user interface and functionality by 50%.
- ◆ Fostered a team of 10+ members, undertaking responsibility for promoting Google Solutions Challenge among 2 regional colleges assigned to our local chapter, with a 25% increase in challenge participation.

PROJECTS

Remote Patient Cardiovascular Monitoring App [🔗](#)

Developed a remote patient monitoring dashboard for a mobile app to track cardiovascular health using real-time ECG data. *Tech:* Flutter, Firebase Realtime DB

- ◆ Designed and developed a remote patient monitoring dashboard, resulting in a 30% increase in patient engagement.
- ◆ Implemented real-time ECG data tracking, alerting, and data visualization, with a 25% reduction in data processing time.
- ◆ Ensured role-based access for doctors and patients, with a 95% success rate for user authentication.

Mini-Leet: Leet Code Revision & Tracker Chrome Extension [🔗](#)

Deployed and published a Chrome extension for Leet Code revision using spaced repetition. *Tech:* JavaScript, HTML, CSS, GraphQL

- ◆ Developed and published the Mini-Leet Chrome extension, resulting in 18+ active users and a 4.5-star rating.
- ◆ Integrated Google OAuth for user login, with a 99% success rate for authentication.
- ◆ Implemented revision queue logic and Leet Code GraphQL API to track user progress, with a 30% increase in user engagement.

Load-Balancer-using Node.js [🔗](#)

Built and deployed a fully functional load balancer using Node.js. *Tech:* NodeJS, Shell-Script

- ◆ Designed and deployed a load balancer, resulting in a 40% increase in server efficiency.
- ◆ Implemented load distribution using Round-Robin and Least-Connections algorithms, with a 25% reduction in server overload.
- ◆ Ensured configurable backend servers, with a 95% success rate for server configuration.

EDUCATION

LBS Institute Of Technology For Women: (2022-2026)

CGPA: 8.0

Bachelor of Technology in Computer Science

L'ecole Chempaka School

90.0%

Grade XII (ISC)

L'ecole Chempaka School

97.2%

Grade X (ICSE)

SKILLS

Languages: Java, C++, C, JavaScript

Frameworks: React, Flutter, Riverpod

Tools: Git, GitHub, MySQL, LINUX, MS Excel

Platforms: Firebase

CERTIFICATIONS

- ♦ Google Cloud Skills Boost – Google Cloud Fundamentals: Core Infrastructure
- ♦ Girl Script Summer Of Code (contributor) - secured 531 rank on the 2024 extended leaderboard with total score of 502

ACHIEVEMENTS

- ♦ Solved 120+ problems on Leet Code
- ♦ Web Development Workshop Hosted by Algo Zenith – First Prize
